Regarding: Partial Payment to commence Action in Case #97-S-1523

Dear Mr. Manspeaker,

I last communicated with you that the Prison Staff had conducted a "shake-down" in the Prison and stolen all the property release forms. I cannot help but feel that was an action in intentional retaliation for my seeking Redress of Grievance.

Monday evening the property release forms were provided to me. Tuesday morning I was transported to Arapahoe County Prison and kept there until today; Friday. Some might suspect that would amount to "diesel therapy" - others might call it an obstruction of judicial process. I think it is pretty obvious that DoubleAgent Donald L. Estep, a key defendant in three of the four Civil Rights Suits before the 10th Federal District Court, has his hand in the affairs of the Jefferson County Sheriff's Detention Center and is able to direct policy and procedures with the intent to defeat justice and impede my Petition for Redress of Grievance.

However, here enclosed is \$20 as initial payment to initiate action. Regular payments will follow.

Thank you for your kind consideration.

Sincerely,

Steve D. Gartin
